

Why would you even think about making changes to this law? Oh yeah, I know why, because the government doesn't want to deal with lawsuits from telemarketers who claim it is unconstitutional to take away their right to earn a wage in this country. Or could it be that the government doesn't want to lose the tax dollars that these companies contribute. Whatever the reason, just remember, WE THE PEOPLE have the right to decide who we want contacting us. Not the government or telemarketing groups. Keep one thing in mind, the law states that if you inform a telemarketer that you would like to be placed on their do not call list, they are not supposed to contact you for a certain number of years. However, I highly doubt that a majority of these groups follow this law accordingly. I know this for fact, because I have requested, to several companies, that I not be contacted in the future, only to be contacted again. And I highly doubt that anyone is going after these companies to enforce this law. So, this law needs to be left untouched and kept in place. Let us decide, not YOU!
